

2050 Pathways Platform Annual Meeting

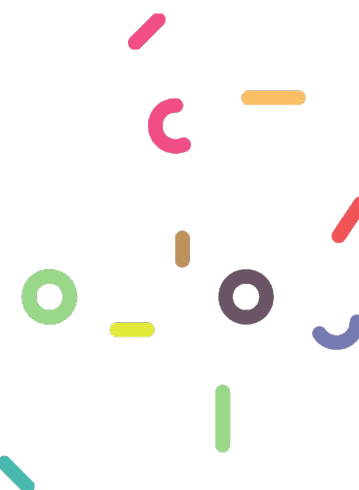

**Towards LT-LEDS operationalisation
Country experiences, learnings and challenges with the development
and update of LT-LEDS**

Thursday, 8 June 2023

Ground Rules

- Listen to understand, not to respond.
- No idea is too bonkers.
- The devil has enough advocates, speak from experience.
- Words and tone matter. Be mindful of the impact of what you say, and not just your intent.
- Safe space (Safeguarding representative)
- Chatham House rule is in place: participants are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed externally
- A word on photographs
- Be empathetic to the facilitators ;-)

Objectives of the meeting over the 3 days

- 
- ❑ To inform members and partners of the progress of the 2050 Pathways Platform and countries in the past year.
 - ❑ To bring platform members and key partners together to foster collaboration, knowledge exchanges, highlighting important lessons and aspects of long-term planning, and celebrate the progress made on long-term low-emission development strategies (LT-LEDS), to date.

2022-2023 highlights from the 2050 Pathways Platform and looking ahead

Key learnings from the online series in May

- **Webinar 1:** Country experiences with the development of a long-term vision
- **Webinar 2:** Approaches to integrate long-term strategies into public finance planning
- **Webinar 3:** The inclusion of macro-economic issues and their analytical approaches in long-term strategies

Introduction to the thematic focus:

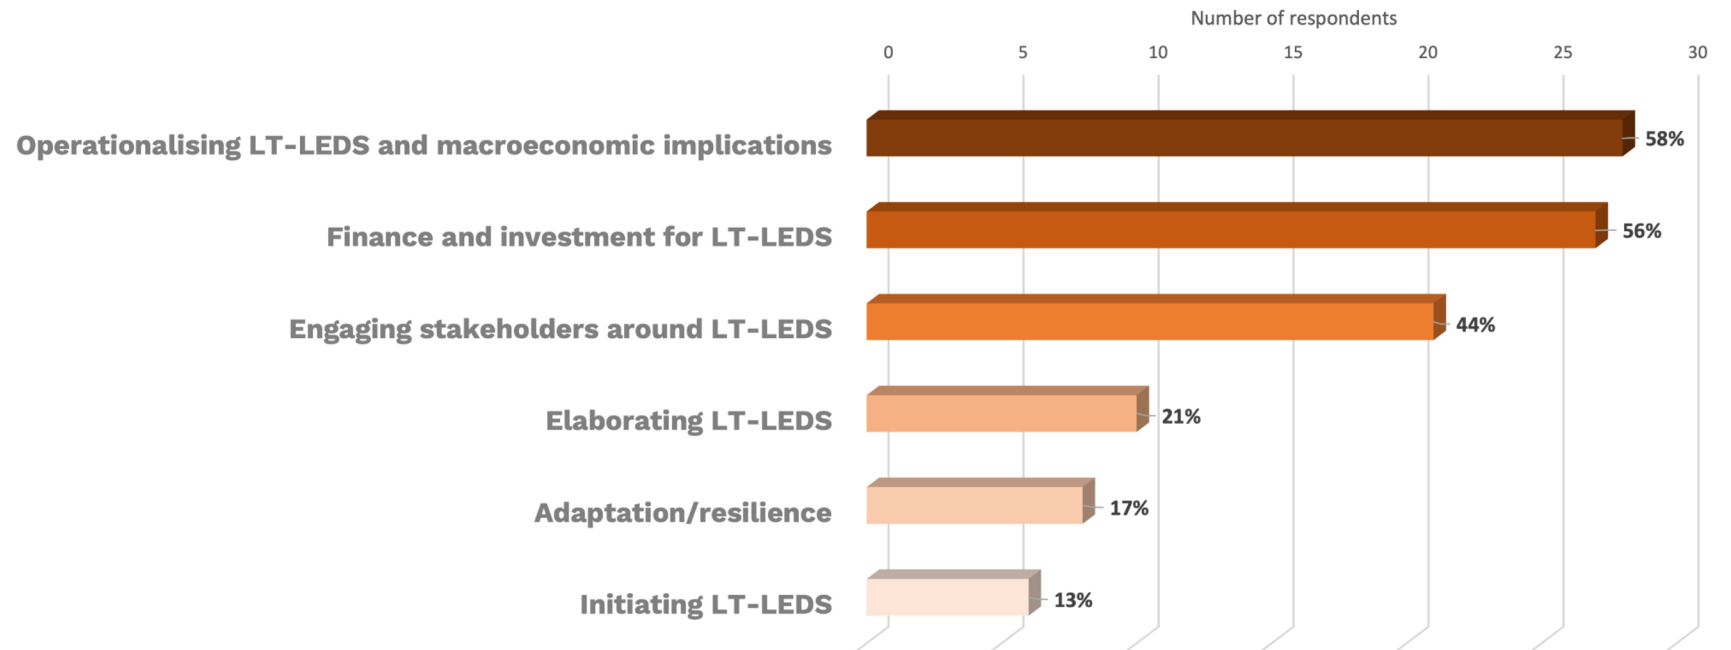

Why LT-LEDS operationalisation as an
overarching topic?

Why LT-LEDS operationalization as an overarching topic?

2050PP conducted a pre-Meeting survey with its network to find out areas of interest on LT-LEDS

Based on 48 respondents, a mix of country representatives, project partners and think tank/research organisations

What LT-LEDS topics are you most interested to learn about at our 2023 Annual Meeting ?

What is LT-LEDS operationalization?

Trends on LT-LEDS operationalization

Refining the milestones towards the end objectives on the LT-LEDS

Analysis of macroeconomic and fiscal considerations arising from the national and international transition

Governance

Sectoral policy and regulatory requirements

Socialization

Capital investment requirements over time

Topics for the Meeting

- ❑ Day 1 - Towards operationalization of long-term low-emission development strategies (LT-LEDS): Country experiences, **learnings** and challenges with the development and update of LT-LEDS
- ❑ Day 2 - The operationalisation of long-term low-emission development strategies (LT-LEDS): **governance** and **LT-LEDS awareness raising**
- ❑ Day 3 -The operationalisation of long-term low-emission development strategies (LT-LEDS): **political buy-in for the just transition, capital investment and sectoral policy**

Objectives of the Day 1

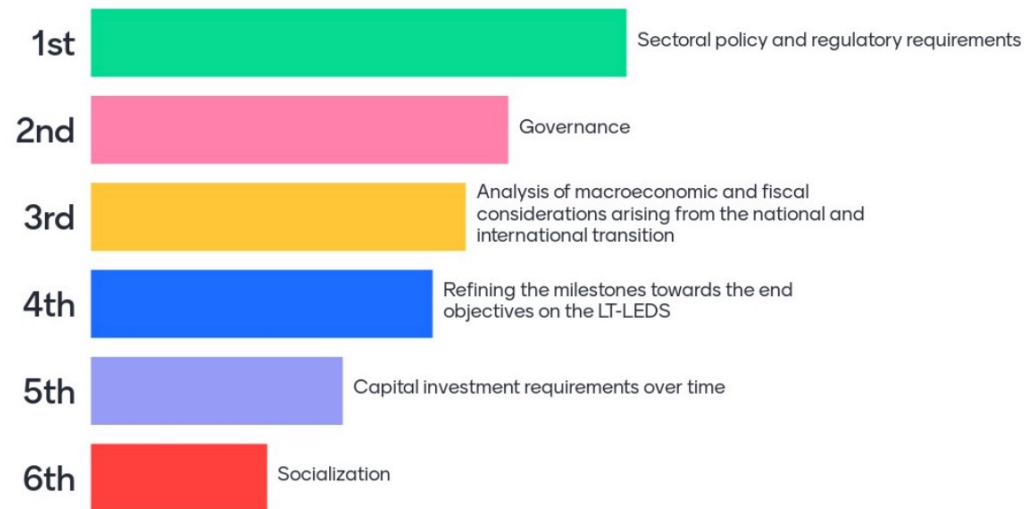

1. Highlight key projects, milestones and challenges for countries and the Platform in the past year.
1. Collectively reflect on the progress made by member countries and other countries the Platform countries work with.
1. Introduce the topics for the meetings and exchange challenges, best practice and lessons learned from the development and update of LT-LEDS in countries for more effective operationalization.

Mentimeter results – Question 1

Mentimeter

Please rank the presented trends of LT-LEDS operationalisation in order of importance to your work

Mentimeter results – Question 2

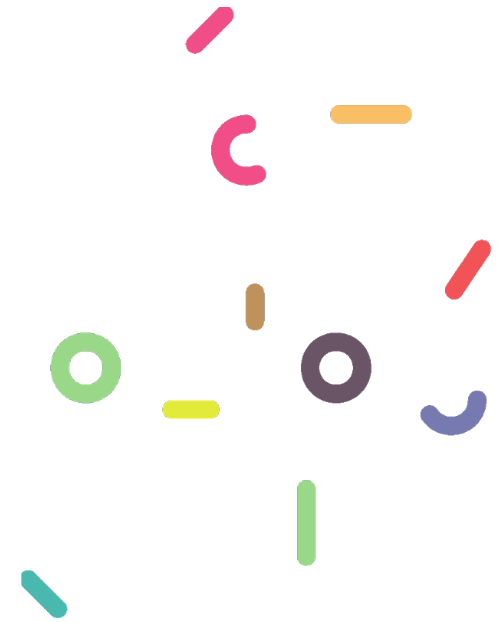

Do you see any LT-LEDS operationalisation trends missing from the options we have put forward?

20 Answers

Political will	Alignment of NDCs and LT-LEDS	Engagement with the private sector
Green finance	Just transition	Multi-stakeholder engagement, esp PPP
Engagement and alignment with current masterplan	Stakeholder engagement. Cooperation.	Alignment of NDC and LT LEDES
Alignment with National development strategies	Analysis of Decarbonisation options	Rapprochement with diferent ministries and capacity building
Capacity building	Alignement with NBSAP as well	Alignment with Local Level planning
Lack of consistnt targets between the LT LEDES and sectoral policies	Tracking progress towards LT-LEDS implementation	Links with academic curricula
Monitoring and Evaluation	Monitoring and Evaluation
